

Gregory Carl Hoglund has served in the oil and gas production industries as an operations manager for thirty-nine (39) years. He has extensive experience in domestic and international upstream and midstream projects, including feed, engineering, procurement, and construction (EPC), commissioning, operations, and maintenance.

In his career, Gregory has served as the Superintendent and Supervisor positions of Oil and Gas Production, Operations and Construction at the following Hunt Oil Company facilities:

- Hunt Oil Middle East LTD in Kurdistan, Iraq from 2015 – 2024.
- Hunt Oil USA, Bakken Shale , Williston, North Dakota from 2012 -2015.
- Hunt Oil, Peru, South America, 2011.
- Hunt Oil, Peru, LNG, Peru, South America.
- Hunt Oil Gas LNG Pipeline Operations, 2009-2011.
- Hunt Oil, Dallas and Houston, Texas, Chief Inspector, Pipeline Construction, 2005-2009.
- Supervisor of all EPC. Completed project below \$1 billion budget and ahead of schedule from 2005 -2009.
- Hunt Oil, Yemen, Superintendent, Pipeline Operations and Maintenance, 2002-2005.

Gregory has additional professional skill sets in pipeline management, facilities maintenance, multi-asset well development, field operations, budgeting, cost control, procurement bidding and team leadership. He promotes effective communication and leadership skills to stakeholders, managerial executives, and team members. These professional skill sets are key to successfully manage operations at the facilities located in foreign countries. His proactive approach to understand the cultural norms, viewpoints, and ideas of the host country team members are essential to establish a positive and collaborative working environment. Gregory utilizes his expansive knowledge and cost control expertise to maximize the profitability of a company.
